FasTrack Premier Managed Service

The Challenges

The BAS labor market is extremely tight and highly specialized. BuildingLogix had critical needs for technicians to execute current projects and grow the business.

The Solution

BirdDogHR recommended its FasTrack Premier service, part of the BirdDogHR Recruitment and Applicant Tracking Solution (ATS). The FasTrack Premier program is a hybrid solution that leverages cloud-based software and in-house recruiting expertise to build a highly qualified pool of candidates rapidly. After the candidate pool was built and scored according to well defined criteria, the FasTrack Premier team automatically delivered the resumes, notes, and fully scored group of candidates into the BuildingLogix ATS software dashboard where the BuildingLogix hiring team simply logged in, reviewed the notes, and scheduled interviews.

The Results

“BirdDogHR has been a great help to our organization and our partner network to find talented people. At BuildingLogix our goal is to help our partners grow their business through BAS integration and providing more complete mechanical, automation, and energy services. The challenge we all face is finding the technical people to fill the gap of the growth we create. BirdDogHR has been a great strategic partner for us to work with to find and fulfill the growth we help create. BirdDogHR’s ability to recruit, interview, and attract talented individuals at a fair and competitive price has been one of the best values we have found in 20 years of growing our business.”
